PERSONAL

- 14 April 2004
- Rotterdam, The Netherlands

TECHNICAL SKILLS

- Python (5+ years)
- Data Analysis
- Machine Learning
- Data Structures

LANGUAGES

Dutch	Native
English	Fluent

INTERESTS

- Bouldering
- Drawing
- Music

EDUCATION

BSc Artificial Intelligence — Sep 2023 – Present
Utrecht University
- Relevant coursework: Machine Learning, Data Structures
- Minor in Mathematics: Calculus, Linear Algebra, Programming for Mathematics

BSc Applied Physics — Sep 2022 – Apr 2023
Delft University of Technology

Gymnasium Diploma — Sep 2016 – Jul 2022
Erasmiaans Gymnasium, Rotterdam

EXPERIENCE

Tutor — Mathematics, Physics & Science — Sep 2021 – Jul 2022
After's Cool
- Tutored secondary school students in mathematics, physics, and other STEM subjects
- Adapted explanations to individual learning styles and skill levels
- Developed patience, clear communication, and structured problem-solving skills

All-Round Hospitality Staff — Sep 2024 – Present
Jordy's Bakery
- Collaborate effectively within a fast-paced team environment
- Maintain professional conduct and quality standards under pressure
- Demonstrate flexibility and take ownership of responsibilities

PROJECTS

Social Sycophancy in LLMs (Upcoming BSc Thesis) — 2025 – Present
Utrecht University · github.com/Alek-Klem-UU/SycoUI
- Preparing research on social sycophancy in Large Language Models across UI and API environments
- Built a functional automated web-interaction pipeline for systematic data collection and evaluation, currently optimizing
- Tech stack: Python, web automation, LLM APIs

KEY COMPETENCIES

- Teamwork & collaboration
- Clear communication
- Proactive attitude
- Logical reasoning
- Task delegation
- Sustainability-minded
